Guest Shoes

Nadine over at Tokyo Shoes is letting people contribute to the site as guest bloggers right now. Tokyo fashions through the eyes of many is good. Good ol' Jesper makes an appearance with, of course, some BAPE goodness.

Vertical

While in Canada I've been picking up THE GLOBE AND MAIL (one of Canada's national newspapers) on Saturdays, and this past weekend the book section had a big review of 3 Japanese novels that have just been translated and released in North America through a new publisher, Vertical, that was started by a Japanese man who wants to bring popular Japanese fiction to the American masses. The 3 releases reviewed were Koji Suzuki's RING (the movie was based on this novel), Kenzo Kitakata's ASHES (a hard-boiled portrait of a gangster) and TWINKLE TWINKLE by Kaori Ekuni (who is compared to Banana Yoshimoto). It's nice to see this, and I look forward to future releases from Vertical (check the site for info on lots of promising reads).

There's a new trailer out for ZATOICHI, the new film by Takeshi Kitano. The top link is the new trailer, and the bottom link the old one. The film opens September 6 in Japan.
